

CONCEPT CANOPY

Your canopy will keep its good looks for years and years without continual upkeep. The tough translucent roof panels allow natural daylight through, so if your canopy is above your kitchen window, patio or living room, adequate daylight still enters your home.

Adds value to your property...

The *Concept Canopy* has undergone rigorous testing procedures in simulated and actual installations over many years. Monitoring of test models is continuous and no component deterioration has been detected. *Concept Canopy* requires no ground preparation and in most cases planning permission is not necessary. It immediately becomes a welcome addition to any house or bungalow.

Installation/Guarantee

The canopy installation can be carried out by trained installers in a few hours with no fuss and no mess. All you need to maintain the elegant looks is an occasional wipe clean. (Supplied with all fixings).

Concept Canopy is designed on a modular basis which means that you can increase the area of the cover at any time and there are no support pillars needed, giving maximum protection for all the vehicles you are ever likely to own.

*** Gutter and Fascia *
are not supplied**

**Modular width sizes
available up to 2440 projection**

Dear Customer

I thoroughly recommend *Concept Canopy* to you. Whether you choose a carport, covered walkway, children's play area or a stylish patio, the *Concept Canopy* will always retain its elegant looks without maintenance. The canopy has been tested at the University of Lancashire in Preston, to a snow loading of 1690kg. And to a wind load of 146mph, far in excess of whatever is likely to occur.

With its strong Cantilever design in a range of gloss colours, which never need painting, it is excellent value for money and would be a welcome enhancement to your home. All materials used in the construction of a *Concept Canopy* carry a five year warranty.
