

Introducing
Grout Line

The look and feel of
conventional ceramic tiles,
without all the fuss.

Our new Grout Line range features contemporary, geometric designs offering a seamless blend of elegance and practicality.

Grout Line panels offer all the benefits of our Neptune Mega Panel range with added routed grooves for a striking 3D tile effect.

For a classic look, you may choose the herringbone pattern or, for a bolder statement in the bathroom, why not choose the hexagonal design?

Grout Line panels are the quick to install, easy to clean alternative to ceramic tiles.
